APPEAL TO FLOOD RELIEF

Dear Friends in service,

Recently most of the remote parts of Sunderban have been badly hit by flood and cyclone, Aaila. Most of the parts of Kultali, Patharpratima, Mathurapur-II & Gosaba have been damaged severely. Houses, domestic animals, pond with fish, tubewells and crops have been dangerously damaged. Many are homeless till date and some are rescued to a common place. They are in need of releif supports like food grains, tarpaulins, blankets and clothings....medicare measures etc. after which a long term development process is requested for their proper rehabilitation and security of life including aged women and children along with the domestic animals. Sources of safe drinking water and proper arrangement of hygenic material just to avoid a severe contamination of drinking water are needed to be taken care of .

We are sending you a fact sheet of flood victims so as to have kind support just to give them temporary relief from the flooding situation...alongwith to give them a permanent selter where they can live with there loving ones.

It will be great if you kindly try to extend your kind co-operation for the victims due to cyclone, Aaila and flood by river water in South Sunderban island areas. We expect your cordial handling of the situation.

We have launched for a small....we need your kind cooperation to save the victims temporarily and for a long-term involvement.

We hope to here from you soon.

Best regards,

**Susanta Giri
Secretary
BTS**
